

It's time to rethink teaching

The current education system can NOT prepare students for 21st century. Majority of top Schools have already started/ completed their transformation journey and several others are in the process. Regardless of where your School is in the process, **we present a proven & tested yet simple solution to make this critical journey easier.** Schools can equip their teachers' with 21st century skills in less than 4 weeks and at the same time, also have an option to help them earn the **coveted Microsoft Certified Educator** certification from Microsoft from comfort of their homes.

Our solution covers full MCE Curricula and prepares Teachers to *know **What They Should Know and What They Should Be Able To Do***". Some of the benefits of our solution are:

- ✓ **Realigning the Teaching**
Teachers learn to sync teaching with the *future needs* of students. This realignment boosts student success.
- ✓ **Learn and Develop New Ways to Teach**
Teachers learn several new tools and methods to make the class engaging and learning fun.
- ✓ **Focus on Most Worthy Activities**
Teachers learn to spend 100% of their time on most worthy activities
- ✓ **Management & Monitoring Skills**
Teachers learn to effectively manage and monitor the learning needs of a 21st century student.
- ✓ **Learn Skills to Become Powerful Facilitators**
Teachers learn to become powerful facilitators & motivators to bring out the best in students and help them succeed.
- ✓ **Develop Systematic Thinking**
The systematic thinking skill helps in picking innovative, high-value tools and solutions to teach
- ✓ **Class becomes a Learning Laboratory**
Under the guidance of an effective 21st century skilled teacher, the class will become a laboratory for learning
- ✓ **Teacher Collaboration**
Teachers start to work with their colleagues as members of a team, sharing their knowledge and skills while contributing to the ongoing development of strong schools
- ✓ **Look at own success through student success in 21st century skills**
Focus will shift to ensuring that in addition to good grades, students leave School with the 21st century skills such as problem-solving, collaboration and critical thinking so they are fully prepared for the future they wish to choose.
